

PROVIDER ALERT

Alert#: PA 2015-10

Issued: September 1, 2015

To: All CT BHP Residential and Group Home Providers

Subject: Update to Monthly Treatment Planning and Progress Report (MTR) Process

Dear Provider,

As you are aware, The CT BHP initial & concurrent authorization process for Residential and Group Home providers was revised and abridged in March of this year. This change impacted providers completing the initial telephonic review as well as the concurrent Monthly Treatment Planning and Progress Reports (MTPPR) in ProviderConnect.

Although these modifications were made to alleviate administrative burden for the intake staff and to streamline the authorization process by reducing the number of fields and the amount of information required for the initial telephonic authorization of care, it has come to our attention that the abridged form is problematic for the PNMI standards related to the treatment plan's goals, objectives and progress.

Therefore, going forward, please begin documentation of the treatment plan's goals, objectives and progress in the **Symptomatology** box (below) and continue documentation in the **Recovery & Resiliency** box (below).

Symptomatology

Please explain the reason for current admission (describe symptoms) and include the precipitant (what stressor or situation led to this decompensation). If this is a concurrent admission, please include the date of admission.

▶ Narrative Entry

(73 of 2000)

Please document the treatment plan's goals, objectives and progress here.

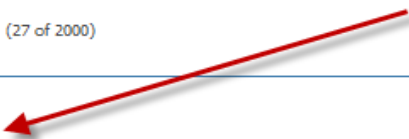

Recovery and Resiliency

Please outline the recovery and resiliency environment to support this individual's long term recovery plan. Please include personal strengths, support systems available, and supports that need to be put in place to assist in the successful recovery.

▶ Narrative Entry

(27 of 2000)

continue documentation here

In order to meet PNMI standards the MTPPR **must** include and clearly label the goals, objectives, and progress for each section. The combination of these two fields should allow for the input of 4000 characters, which will allow for more comprehensive progress within the MTPPR.

We thank you for your participation in the CT BHP network and we look forward to working with you in the coming months to continue to enhance collaboration within the behavioral health delivery system. If you have any questions, please feel free to contact the CT BHP Call Center at 1-877-552-8247.
