
PROVIDER NOTICE

Notice #: PN 2016-05
Issued: October 21, 2016
To: All CT BHP Providers
Subject: CT BHP Releases Medication Assisted Treatment (MAT) Resources

Dear Provider,

This Notice serves as a reminder that the CT BHP remains committed to combating the opioid epidemic that has become prevalent throughout our State. In June of 2016, the CT BHP launched a new Medication Assisted Treatment (MAT) page on our website to support both providers and members. This page contains a wealth of resources on treatment and recovery including: facts about medication assisted treatment, provider toolkits and forms, white papers, and upcoming trainings/focus groups.

We are also excited to announce the addition of our new interactive map of substance use providers and services for members. This map allows users to search for providers based on location, type of setting (i.e. methadone clinic, intensive outpatient, etc.) and type of treatment available (i.e. Methadone, Suboxone, or Vivitrol). Users can also use the map to search for other treatment services that support substance use recovery.

Feel free to access the map and other MAT resources by visiting our homepage at www.CTBHP.com, then clicking on the "Medication Assisted Treatment (MAT) Resources" hyperlink under the *In the Spotlight* section.

If you have any questions or comments, please feel free to contact the CT BHP at 1 (877) 552-8247, options 1, 3, and 7.

Sincerely,

The Provider Relations Department
Connecticut Behavioral Health Partnership

Note: Users may have to refresh the website page if they do not see the Medication Assisted Treatment links.
