RE: Updated Guidance Regarding Multi-disciplinary Examinations

The Department of Social Services (DSS) is updating billing guidelines regarding Multi-Disciplinary Examinations (MDEs) provided for children covered by HUSKY Health who are in the custody of the Connecticut Department of Children and Families (DCF). This policy transmittal supersedes provider bulletin (PB) 2015-72 "Multi-disciplinary Examinations" and is effective for dates of service January 1, 2018 and forward.

The MDE is a comprehensive examination with three components: 1) a medical examination, 2) a behavioral/developmental examination, and 3) a dental examination. The MDE must result in a written report with recommendations for appropriate treatment and follow-up care.

MDE services are provided by DCF-contracted MDE service providers or their subcontractors. In some cases, a single agency is licensed to provide all three components of the MDE while being entitled to reimbursement for each component. In other cases, multiple agencies or providers are involved in the conduct of the various components of an MDE, each within its scope of licensure.

Any provider who wishes to be reimbursed for any component of an MDE must be:

1. Enrolled with the Connecticut Medical Assistance Program (CMAP);
2. Operating within its scope of licensure for the service provided;
3. Billing for a component of the MDE that is listed on the provider's fee schedule; and
4. Contracted or subcontracted with DCF as an MDE service provider.

MDE EXAMINATION COMPONENTS

Providers should bill one of the procedure codes listed below that fall within the appropriate MDE component category (medical, dental, behavioral

health) and is a billable service on their respective fee schedule.

Please refer to the applicable section under "Coding and Claims Submission" for additional details.

CODING AND CLAIM SUBMISSION

All MDE claims must be submitted with an International Classification of Diseases (ICD) - 10 diagnosis code of **Z65.3 (Problems related to other legal circumstances)**. Providers should bill their usual and customary charge for each service.

Federally Qualified Health Centers (FQHCs)

Encounters for MDE services rendered in an FQHC setting should be coded using the procedure code **T1015** (Clinic visit/Encounter, All-Inclusive) **in conjunction** with the appropriate procedure code(s) listed above. The FQHC is eligible to

receive its full medical, dental, or behavioral health encounter reimbursement for each of the components that is provided and for which it is separately enrolled and licensed. A separate claim must be submitted for each different FQHC type/specialty in order for the additional encounters to be reimbursed.

CLINICS

Clinics performing MDE services must bill the appropriate procedure code(s) from the above list. Procedure codes billed for MDE services must be on the applicable clinic fee schedule to be eligible for reimbursement. The reimbursement amount for each MDE component will vary based on the provider type and specialty and/or applicable fee schedule.

OUTPATIENT HOSPITALS

Hospitals billing for MDE services must use the Revenue Center Code (RCC) and procedure code combinations listed below for each component of the MDE services rendered.

Medical Examination:

The medical component of an MDE provided in an outpatient hospital setting is reimbursed based on Ambulatory Payment Classification (APC) methodology. Hospitals should utilize CMAP’s Addendum B to determine the method of payment. Hospital reimbursement for the medical component is for the facility charge only and the practitioner should bill separately via a professional claim.

Revenue Center Code	Billable Procedure Code
515 – Pediatric Clinic	G0463

Dental Examination:

The dental component of an MDE provided in an outpatient hospital setting will be reimbursed based on the RCC/procedure code combination of \$35.00. The dental component of the MDE is considered an all-inclusive rate and professional fees are not reimbursed separately.
