

Facts at a Glance – June 2015

About CCT: The Middlesex County Community Care Team (CCT) is comprised of 13 community agencies that specialize in the delivery of care for patients experiencing substance abuse and mental health disorders.

- Middlesex Hospital
- River Valley Services
- Connecticut Valley Hospital (Merritt Hall)
- St. Vincent de Paul Soup Kitchen
- Community Health Center
- Gilead Community Services, Inc.
- Advanced Behavioral Health
- Rushford Center, Inc.
- The Connection, Inc.
- Mercy Housing
- Columbus House
- Value Options, Connecticut
- Community Health Network

CCT Objective: To provide patient-centered care and to improve health outcomes by developing and implementing a safety-net of alternative services through multi-agency intervention and care planning.

CCT Target Population: High-risk patients experiencing acute and chronic mental health issues and/or substance abuse and have high emergency department utilization. Common experiences include:

- disjointed care/lack of care coordination
- lack of a social support network
- homelessness/housing issues
- poor primary care connections
- other social determinants of health

CCT Process: Development of individualized care plans of wrap-around services that best meet the needs of the specific patient.

Patient Demographics: For a cohort of 195 patients:

Age Distribution:

- 20 – 29: 11%
- 30 – 39: 16%
- 40 – 49: 25%
- 50 – 59: 34%
- 60 – 69: 13%
- 70 – 79: 1%

Payor Status:

- Medicaid: 54%
- Medicare : 40%
- Commercial: 4%
- Self-pay no insurance: 2%

Gender:

- Male: 64%
- Female: 35%
- Transgender: 1%

Housing: 40% of the CCT case load experiences homelessness/fragile housing

Outcomes:

- 1,142 reduction in emergency department and inpatient visits (pre-/post-); cost reduction
- Improved quality of life (sobriety; mental health stabilization; reduced homelessness; re-entry to workforce)
- Linkages to: primary care physicians, psychiatrists, specialists; supportive housing; appropriate outpatient services
